

CENTER *for* AIDS & STD **W**

The mission for the Center is to prevent transmission of HIV and other sexually transmitted infections, and to reduce human suffering caused by these infections.

About

The University of Washington (UW) Center for AIDS and STD, established in 1989, provides patient care, research, training and education, and international technical assistance for HIV/AIDS and STD. The Center is administered by the UW in collaboration with several other institutions throughout the Pacific Northwest and globally. Over 700 UW and affiliated faculty participate in these programs, with funding totaling \$85.7M. They include 58 HIV/AIDS and STD investigators and staff in 38 UW Departments and 10 UW Schools and Colleges, and all 5 Divisions of Fred Hutch.

Accomplishments

National model for a) integration of HIV & STD programs; b) strong linkages between Public Health, University, and public hospital HIV/STD programs; and c) linkages with Seattle-based health institutions. Specific accomplishments include: co-location of programs and increase in space; collaborative research; increased grant funding; training of hundreds of HIV/STD researchers, clinicians, and public health practitioners; and building HIV/STD control infrastructure locally, nationally, and globally.

Leadership

Matthew Golden, MD, MPH
Director
