

POSTER PRESENTATION

Cystic Fibrosis Annual Retreat

Wednesday, September 27, 2017

Participation Guidelines

The Cystic Fibrosis Translational Research Center and Research Development Program will be hosting a NEW Poster Presentation Session for Junior Faculty and Trainees at the Annual Retreat on **September 27, 2017** at the [Center for Urban Horticulture](#).

As the retreat occurs just prior to the North American CF Conference (NACFC), we strongly encourage all investigators who submitted abstracts to NACFC to present their posters at the retreat. This will provide an ideal opportunity not only to showcase your research, but also to receive constructive feedback on your poster with time to revise before presenting at NACFC. You may also submit a poster on work not being presented at NACFC or that was presented at the Cystic Fibrosis Foundation Research Conference: Pushing the Frontiers.

Awards will be given for the highest-rated posters by junior faculty and trainees.

Poster Submission Guidelines

- No abstract submission is required. Simply submit the title of your poster, and whether or not it was submitted as an abstract to NACFC or the CFF Research Conference: Pushing the Frontiers.
- Posters will be available for viewing in Merrill Commons at the Center for Urban Horticulture during the lunch break. The submitting author must be available at the poster board during the poster sessions for presentation and discussion. **Please do not submit a poster if you are not available to attend the event.**

Poster titles must be emailed to Donna Crist (donna.crist@seattlechildrens.org) by Thursday, June 15, 2017. Please indicate whether you are presenting your poster at NACFC.

POSTER PRESENTATION

Cystic Fibrosis Annual Retreat
