## ***Splanchno-hormonal Mechanisms of Cystic Fibrosis Related Diabetes***

**Andrew Norris, MD, PhD**

Associate Professor of Pediatrics & Biochemistry  
Stead Family Department of Pediatrics  
Endocrinology and Diabetes Division  
University of Iowa

Dr. Norris' research is focused on how fetal over- or under-exposure to macronutrients incites poor metabolism. Dr. Norris' group works collaboratively with other University of Iowa investigators to better understand the pathophysiology of cystic fibrosis related diabetes.

Event Jointly Sponsored by the UW Cystic Fibrosis Research Translation Center.

*The Diabetes Research Center gratefully acknowledges the generous support of  
THE GEORGE & MARGARET ZIVELONGHI FOUNDATION,  
GRAND CHAPTER OF WASHINGTON ORDER OF THE EASTERN STAR, and MERCK, INC.*
