1 When the study will utilize services only from research-only centers and/or when services, items or tests cannot be linked to an individual patient or study subject, CTO review and reporting requirements are waived.

2 Only when a UWP physician or a practitioner with billing reassigned to UWP is performing and billing.

3 Research-only facility and professional fee charges which are covered by research study sponsors are invoiced directly by the VMC Research Department to study sponsors. VMC PFS is not involved in the billing of these types of research-only charges.
