Funding for the Series is generously provided by Tanya Bevan, friends of Don Bevan, the UW School of Aquatic and Fishery Sciences, and NOAA's Alaska Fisheries Science Center and Northwest Fisheries Science Center.

7 January

Jim Winton

Chief, Fish Health Section,
USGS Western Fisheries Research Center

**Beyond fishery management?
Climate change and disease**

11 February

Barry Gold

Marine Conservation Initiative Lead,
Gordon and Betty Moore Foundation

**Leverage points and incentives
in shaping sustainable fisheries:
The role of environmental
foundations**

14 January

George Rose

Professor, Fisheries and Marine Institute,
Memorial University

**Facing the Grand Banks fisheries:
Myths and sustainability**

18 February

Julia Baum

NCEAS Postdoctoral Associate,
University of California, Santa Barbara

**In hot water: Consequences of
escalating shark exploitation**

21 January

David Allan

Professor, School of Natural Resources
and Environment, The University of Michigan

**Protection strategies for fresh-
water fisheries and ecosystems**

25 February

Mike Rubino

Manager, NOAA Aquaculture Program

**Is aquaculture a sustainable
use of the sea?**

28 January

Andrew Trites

Director, Marine Mammal Research Unit,
University of British Columbia

**Steller sea lions and groundfish
fisheries in Alaska: Can the two
co-exist?**
