7th Annual Conference of Environmental Politics and Governance

JUNE 23-25, 2021

Department of Political Science
University of Oslo
April 14, 2021

Dear Colleagues:

Regrettably, the corona situation has forced us to move the EPG conference online this year, too. For the 2021 conference, we received 86 proposals from 25 countries in six continents. The number of proposals was thus slightly lower than last year, possibly due to COVID-19. Nevertheless, many excellent proposals had to be turned down due to space constraints. We are pleased to note that a majority of the proposals we received were authored or co-authored by women.

We look forward to seeing you online in June!

Tora Skodvin & Jon Hovi
