

Washington State’s 2019 Advanced Registered Nurse Practitioner Workforce

Online Appendix – Unweighted Response Counts and Percentages for Each Survey Question

Advanced Registered Nurse Practitioners (ARNPs) in Washington State were required to complete an online survey with questions about their demographics, work characteristics and education history. ARNPs are certified as Nurse Practitioners (NPs), Certified Registered Nurse Anesthetists (CRNAs), Certified Nurse Midwives (CNMs) or Clinical Nurse Specialists (CNSs).

The tables below show unweighted responses for each certification level, meaning they show the number of ARNPs who selected each response option for each question in the Nursys survey. These should not be confused with the weighted estimates presented in the Full Report at https://depts.washington.edu/fammed/chws/wp-content/uploads/sites/5/2020/04/WA_ARNP_Survey_2019.pdf See Appendix A of the full report for a more complete description of the weighting process.

Notes:

- 1) Sex, age and mailing address were collected for all ARNPs when they initiated or renewed their nursing license. See Appendix A for information about these variables.
- 2) Number of employment positions, number of hours worked, employment setting, employment specialty, position title(s) and employment ZIP Code questions were only asked of ARNPs who indicated they were employed in nursing. All other questions were asked of all ARNPs taking the survey.
- 3) Table cells with responses from less than 10 nurses were suppressed to protect the identity of nurses and to indicate that these estimates may be unreliable due to the small number of survey responses. Some additional cells with 10 or more responses were also suppressed to prevent back-calculation of the cells with fewer than 10 responses.

Race

	Unweighted Survey Responses – Count (Percent)			
	NP	CRNA	CNM	CNS
American Indian or Alaska Native alone	Suppressed	< 10	0 (0.0%)	0 (0.0%)
Asian alone	316 (7.0%)	30 (4.5%)	< 10	< 10
Black/African American alone	133 (2.9%)	10 (1.5%)	< 10	< 10

No answer	45 (1.0%)	7 (1.0%)	0 (0.0%)	0 (0.0%)

Ethnicity

	Unweighted Survey Responses – Count (Percent)			
	NP	CRNA	CNM	CNS
Hispanic/Latino	180 (4.0%)	19 (2.8%)	< 10	< 10

Note: Survey respondents were asked to check a box if they identified as Hispanic/Latino. There was not a corresponding box for “Not Hispanic/Latino” or “Choose not to answer.” Therefore, it was not possible to assess the percentage of respondents who chose not to answer the ethnicity question.

Employment status

	Unweighted Survey Responses – Count (Percent)

In how many positions are you currently employed as a nurse?

	Unweighted Survey Responses – Count (Percent)			
	NP	CRNA	CNM	CNS
1	3392 (74.6%)	465 (69.4%)	217 (78.3%)	65 (76.5%)
2 or more	830 (18.2%)	167 (24.9%)	37 (13.3%)	9 (10.6%)
Not employed as a nurse - Question not asked	324 (7.1%)	38 (5.7%)	23 (8.3%)	11 (12.9%)

Note: The Nursys survey allowed ARNPs to select 1, 2 or 3 as an answer to this question. Answers of 2 or 3 were grouped into “2 or more.” There were also some ARNPs who provided information in other survey questions about a secondary work position (such as a secondary work setting) but did not indicate they worked in more than one position for this question. We also recoded these responses as “2 or more” for this question.
