

ONE MONTH GLOBAL HEALTH ELECTIVE IN MALAWI

Malawi is training Family Doctors to bring broad perspective to a health care system and to be leaders of that system. Many countries in Africa are working toward this goal and the world is waiting to see what Family Medicine can do in African health systems.

WWAMI RESIDENCY NETWORK PROGRAMS ACADEMIC COLLABORATION WITH MALAWI FAMILY MEDICINE

Who should apply?

- Family Medicine residents, affiliated with the WWAMI network, in their 2nd or 3rd year
- Residents interested in global health, global family medicine development, teaching and systems improvement.

When:

Open spots available during academic year 17-18:

October 16-December 10th (blocks 5-6) 3 slots

January 15- Feb 9 (block 8) 1 slot

March 5-April 1st (Block 10) 3 slots

Faculty oversight:

Dr Jacob Nettleton (who is working with global health service partnership) will be working in Malawi to train Malawian trainees.

Malawian faculty from the college of medicine are also supportive of our residents.

Evaluation

Residents will be expected to evaluate their experience both for the purposes of this partnership as well as to help make improvements over the years.

Residents will be evaluated by those with whom they work.

Cost \$ 3000-3500.
