University of Washington  
School of Medicine  
1st Year Student

**Daniel Bechtold**  
dabecht@uw.edu

Hello Hailey! My name is Dan Bechtold and I am currently embarking upon the first year of medical school at the University of Washington. I am an Idaho boy at heart and elected to stay in the state for undergraduate education at Northwest Nazarene University in Nampa prior pursuing a brief career as a professional bicycle racer and chemistry teacher in the Treasure Valley.

Over the next few years I look forward to becoming a member of your community as I study rural medicine in the Wood River Valley. Growing up in Idaho Falls, Central Idaho was a frequent destination for outdoor excursions. I have fallen in love with your community while participating in events such as the Boulder Mountain Tour and LP 200 as well as when stopping off during frequent fly fishing trips and backpacking adventures. I look forward to becoming better acquainted with the people of Hailey and hope to learn from you all both in the clinic and the great outdoors!

**Frank Batcha, MD** is the primary preceptor for the Hailey, ID TRUST site.
