

MOSES LAKE CLINIC WELCOMES

1ST YEAR MEDICAL STUDENT

KAMERON FIROUZI

UW Medicine

UW SCHOOL
OF MEDICINE

TRUST

Hello!

My name is Kameron Firouzi and I am a first-year medical student at the University of Washington starting my studies 8/12 at the WSU Campus in Spokane. As part of my studies and participation in the TRUST program, I will be visiting Moses Lake for a week this summer and coming back many times over the next four years. I am excited to be here and looking forward to the opportunity to learn from Dr. Matthews and others at the Moses Lake Clinic.

I am a Moses Lake native and a graduate of Moses Lake Christian Academy. I have two younger sisters that mean the world to me—one is applying to law school and one is studying to become a nurse. I especially look forward to my visits home to spend time with my family—particularly my dad who I consider my role model! I am a graduate of the University of Washington with a major in physiology. I married Ashley, my high school sweetheart and the love of my life last summer. We recently adopted a “Westie” puppy and are looking forward to spending my first year of medical school in Spokane. I enjoy basketball, golf and football and am a DIE HARD Denver Broncos fan—I haven’t missed a televised game since 1998!

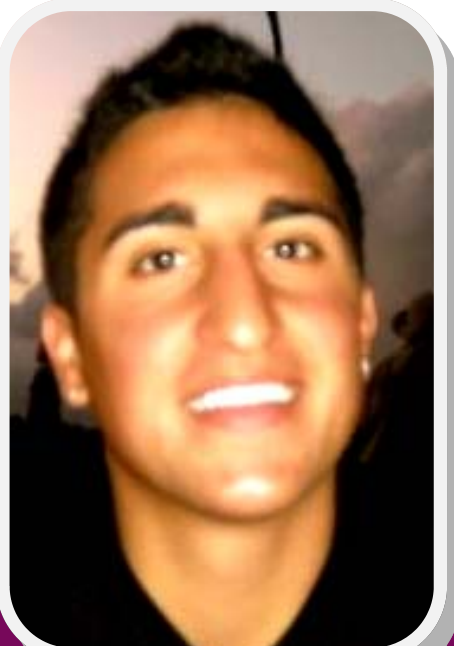

My passion for medicine came from growing up in Moses Lake and wanting to eventually one day give back to a community that has given me so much. During my time abroad in South Africa and Mexico, my passion to become a physician grew stronger as I found inspiration in helping the underserved population.

(Targeted Rural/ Underserved Track)

The goal of Washington TRUST is to allow for a focused medical school experience in underserved care, with the eventual goal of returning physicians to practice in the underserved areas of Washington. Washington TRUST scholars will have multiple opportunities to experience first hand the joys and satisfaction of practicing medicine in an underserved community.
