

FAMILY HEALTH CENTER NEWPORT WELCOMES

1ST YEAR MEDICAL STUDENT

RYAN MULLIGAN

UW Medicine

UW SCHOOL
OF MEDICINE

TRUST

Greetings! My name is Ryan Mulligan and am looking forward to participating in the TRUST training program that allows me to spend time here before I start coursework for medical school at the WWAMI Spokane Campus 8/12 and to return to Newport throughout my four years of medical school.

I'm a native of Chewelah so the opportunity to be close to home during my medical school training is an added bonus! I'm extremely grateful to my amazing family. My dad teaches math & woodshop and my mom is an amazing influence for me and my siblings (my older brother is a C-130 pilot in the Air Force and my younger sister is just graduating from high school). I graduated from Montana State University in Bozeman with a degree in Biochemistry. I'm hoping to become a Family Medicine physician and practice in a small, rural community as I understand the importance of providing healthcare to our rural citizens. I also hope to have times that I will be able to visit and provide care in communities around the globe where they would otherwise have zero access to care.

In my free time, I enjoy playing music, basketball, running, hiking, rock climbing, water skiing, copious amounts of time on the beach, cross-country skiing, snowshoeing, racquetball and long talks with friends late into the night. And, I really enjoy great coffee!

I'm grateful for the many wonderful people that God has placed in my life and look forward to meeting more in Newport!

(Targeted Rural/ Underserved Track)

The goal of Washington TRUST is to allow for a focused medical school experience in underserved care, with the eventual goal of returning physicians to practice in the underserved areas of Washington. Washington TRUST scholars will have multiple opportunities to experience first hand the joys and satisfaction of practicing medicine in an underserved community.
