

COULEE FAMILY MEDICINE WELCOMES

FIRST YEAR MEDICAL STUDENT *CATHERINE STOUT*

UW Medicine
SCHOOL OF MEDICINE

TRUST

(Targeted Rural/ Underserved Track)

Catherine grew up in Goldendale, WA and graduated from Pacific Lutheran University in Tacoma with a major in Biology and minors in Chemistry, Music and Religion. She enjoys singing and playing French horn, reading and meeting new people.

Catherine has spent summers as a camp counselor since 10th grade. She has participated in summer activities with over 550 campers of all ages (including day campers)! Children are a joy—she considers it a privilege to have served in this role and counts them as some of the best summers of her life...

She wants to be a doctor because she has a passion for the overlooked and underserved - people in rural areas, the homeless, the elderly, etc. Someday she would like to be a family practitioner in Eastern Washington or North Idaho. She wants to be a resource, a teacher, and a partner in helping people become active participants in their own health-care. Catherine is attending her first year of medical school at WSU-Spokane where she is enjoying residence complete with a new kitten named Roger.

The goal of Washington TRUST is to allow for a focused medical school experience in underserved care, with the eventual goal of returning physicians to practice in the underserved areas of Washington.

Washington TRUST scholars will have multiple opportunities to experience first hand the joys and satisfaction of practicing medicine in an underserved community.
