

# ***THE VALLEY CLINIC WELCOMES***

## **FIRST YEAR MEDICAL STUDENT .... *KATIE MARTIN***

**UW Medicine**  
SCHOOL OF MEDICINE

### ***TRUST***

#### ***(Targeted Rural/ Underserved Track)***

Katie is a native of Toledo, WA . She graduated from high school in her home town and then graduated from George Fox University in Newberg, OR with a major in Biology and minors in Chemistry and History. Katie enjoys her large family—she is the third of eight children!

Katie’s desire to become a physician is based in her interest in the study of the human body and of disease and treatment. She is also excited to do something fundamentally practical and helpful—to connect with people in a simple, caring way that promotes total wellness. She hopes to specialize in primary care—with the highest interest in Family Medicine or Pediatrics. She also hopes to practice in a rural area and perhaps to explore her interest in Native American healthcare.

Katie enjoys backpacking, running, piano, violin and gardening in her spare time.

The goal of Washington TRUST is to allow for a focused medical school experience in underserved care, with the eventual goal of returning physicians to practice in the underserved areas of Washington.

Washington TRUST scholars will have multiple opportunities to experience first hand the joys and satisfaction of practicing medicine in an underserved community.
