

# KELLEE GLAUS

## Targeted Rural UnderServed Track

Montana

Entering Class of 2015

*TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.*

Hello Hamilton!

My name is Kellee Glaus, and I am excited to spend time in your community for the next four years!

I am a born and raised Montana girl. I grew up on a ranch right outside Whitehall, Montana. I attended Cardwell Elementary for grade school and Whitehall High School after that. I have two older brothers, and I feel like they taught me to handle just about anything!

After high school, I attended the University of Montana on a full ride as a scholar and a triple jumper on the track team. Those four years flew by! Just last spring, I finished my degree in human biology.

This last year, I have worked as a rehab technician at Community Medical Center in Missoula. I have learned so much from this hospital setting. I really appreciate all that the physical therapists do and the ways they interact with the nurses, CNAs, doctors, and the rest of the care team. I hope this training will help me to assist your community!

I am a very active person, and I love to do anything outdoors. I enjoy hiking, camping, fishing, hunting, as well as just about any sport. I am a very social person, and I can't wait to meet all of you. I also love Nap's burgers, and I am excited to see the rest of the area. Hamilton is so beautiful! This past spring, I hiked up Blodgett Creek Canyon. I hope to enjoy many more hikes in the area.
