UW MEDICINE

## Targeted Rural UnderServed Track

Montana

Entering Class of 2015

*TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.*

Hello Hardin! My name is Rebekah Huckleby and I will be starting down my path towards becoming a doctor with you! I am very excited to be coming to Hardin. I was born in Butte, MT and spent my childhood between Butte and our family ranch in Basin, WY. Being homeschooled up until high school made it easy to split time between both places.

I have been a competitive swimmer since I was six years old. Hardin was one of the many places I competed at throughout Montana during my swimming career. In high school, I swam for Butte High and competed at the state meet in Hardin more than once! I am excited to return to Hardin and spend more time getting to know the town and its people!

My senior year of high school I became a certified nurse assistant and began work as a CNA in an Alzheimer unit in an Assisted Living facility. I knew I wanted to pursue healthcare from then on. I graduated from Montana Tech with an Associate degree in Radiologic Technology in 2013 and then transferred over to Montana State University to complete my degree in Cell Biology and Neuroscience.

During my time in Bozeman, I got a job at the urgent care clinic in Belgrade, as both an x-ray tech and as a medical assistant. I loved my job and worked full time at the clinic up until I graduated from MSU in December of last year. After graduating, I was able to fulfill a dream of mine. I got to spend a week outside of Santa Ana, El Salvador with a wonderful group of people providing health care for the children and families of the small community there.

Aside from traveling and helping people, I love to swim, fish, hunt, hike, and be outdoors. I enjoy the sunshine and the snow Montana has to offer and spend any free time busy enjoying the outdoors.

I am now returning to Bozeman to fulfill another dream of mine and complete medical school! I look forward to the time I will spend in Hardin and all I have to learn with my great group of doctors in Hardin! Thank you for welcoming me to your community!

*Becka*

*Becka's family: brother Andrew, sisters Rachel & Sarah, Mom (holding niece, Kinsey), Dad (holding niece, Akaya), brother Josh, Becka & sister Lydia*

*Becka with Laura Hall, NP, in El Salvador*
