Targeted Rural Underserved Track

WWAMI
TRUST
UW MEDICINE

Wyoming

Entering Class of 2015

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello!

I'm a medical student from the University of Washington. I will be in the Wind River Reservation Clinics and Lander periodically from 2015-2019. I am very excited and honored to have your community play such an important role in my medical education.

I was born and raised in Wyoming. I moved from Sheridan and the beautiful Big Horns to Cheyenne when I was young, graduated from Central High School and attended the University of Wyoming.

I spend as much time as I can fly fishing, hiking, backpacking, climbing and canoeing. Beyond the outdoors, most of my interests and hobbies revolve around health and fitness including sports, exercise, and cooking, but I will also never turn down a good book or movie!

I couldn't ask for a better opportunity to achieve my career goal of returning as a Wyoming physician. I look forward to meeting you all!

**Thank you!
David**
