

CHANCE STEWART

Targeted Rural UnderServed Track

WWAMI
TRUST
UW MEDICINE

Montana

Entering Class of 2016

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello Miles City!

My name is Chance Stewart and I am very excited to start my UW TRUST experience with you.

I am not unfamiliar with Miles City as my parents live in Hardin and I have been through Miles City a few times on the way to visit my sister in North Dakota. I grew up in the Bitterroot Valley in the town of Corvallis. There, I graduated from Corvallis High School and later attended Carroll College in Helena. I had a wonderful experience at Carroll and graduated May 14, 2016 with a bachelors of arts in biology while minoring in philosophy.

I am now living in Helena for the summer and working as a server/bartender to pass the time. When I am not at work I enjoy mountain biking, reading, going to the gym and spending time with my friends. I am very excited to begin my medical education

at Miles City and I very much look forward to becoming a part of your community.
