## Targeted Rural Underserved Track

WWAMI  
**TRUST**  
UW MEDICINE

Wyoming

Entering Class of 2016

*TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.*

Hello Lander!

I'm very excited to begin my training with you and for the opportunity to learn in Lander. I look forward to returning throughout my education. After living in Salt Lake City for almost 8 months now, and I am ready to get back home to Wyoming!

I claim Evanston as my hometown. Before my family and I finally settled in Evanston we followed my dad's jobs and education in Laramie and Wamsutter, Wyoming. I did my undergraduate work at BYU-Idaho in Rexburg, ID, where I majored in Chemistry and minored in Biology. After graduation I had the opportunity to work a couple great jobs, including teaching anatomy and physiology labs at my alma mater, and a short stint working construction. Most recently I have been working as a technologist at ARUP, a clinical and pathology reference lab in Salt Lake.

I love the outdoors, though I'm a novice. I especially enjoy hiking, my favorite hike so far being Table Rock in the Tetons. Other hobbies include music, jamming on the guitar, and reading both fiction and non-fiction. I dabble in programming as well.

I look forward to meeting and working with you! I am very grateful for your willingness to receive me and for the opportunity I will have to learn from you. I intend to take full advantage of this experience so I can become the best physician possible for the people of Wyoming.
