

ROSS LOGAN

Targeted Rural Underserved Track

WWAMI
TRUST
UW MEDICINE

Western Washington

Entering Class of 2016

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello Port Angeles! My name is Ross Logan and I am a first year medical student at UW School of Medicine, where I am a TRUST scholar. This is a unique program that allows me the opportunity to develop my primary care skills while helping to serve the people of your beautiful community.

I am originally from Florida, but I have lived in Western Washington since 2003. I moved to Tacoma to attend college at the University of Puget Sound. Since graduation, I have worked as a wildland firefighter, a city firefighter/EMT for Pierce County and as an emergency room technician at Swedish Medical Center in Seattle. Additionally, I assisted in biotech research for the Kineta company while completing my Post-Bac certificate at Seattle University.

In my free time I enjoy mountaineering in both the Cascades and Olympics, riding motorcycles through the Tahuya off-road park, and sailing in Puget Sound. My wife and I have always had a great enthusiasm for outdoor adventures and many spots on the Olympic Peninsula and the Washington Coast are among some of our favorite places!

We look forward to being so close to the natural beauty of Port Angeles and the Olympic Peninsula. Thank you for welcoming us into your community!
