

JOSHUA REDDISH

Targeted Rural Underserved Track

WWAMI
TRUST
UW MEDICINE

Idaho

Entering Class of 2016

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello Wood River Valley!

My name is Josh Reddish and I am humbled by the opportunity to participate in the TRUST program. It is an incredible honor to have your community be a part of my journey to become a physician.

I have many fond memories of enjoying the culture and outdoor recreation in the Wood River Valley. My wife and I have even dreamed of one day residing in your area. As a medical student, and a future physician, I want to be a strong advocate for public health and wellness. I hope to play an active part in building and maintaining healthy communities. I am especially excited to serve the rural areas in my home state of Idaho.

In my spare time, I am a highly competitive trail runner. I also enjoy skiing, mountain biking, backpacking, and any other activity that allows me to enjoy those beautiful Idaho mountains. I look forward to my adventures in the Wood River Valley!

Thank you for welcoming me into your community!

See you soon! Joshua
