## Targeted Rural Underserved Track

WWAMI  
**TRUST**  
UW MEDICINE

Idaho

Entering Class of 2017

*TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.*

Greetings Jerome!

I'm really excited to come back to the Magic Valley for the TRUST program! I grew up right down the road in Gooding, Idaho where I took care of a menagerie of sheep, yaks, turkeys, and chickens.

I'm currently finishing my biology major as well as English literature, psychology, and health profession minors at the College of Idaho where I was active in Circle K International, pre-health club, student government, and campus ministries. Outside of school, I love reading fantasy novels, watching sci-fi movies, baking, and running.

Last summer, I interned at the medical clinic in Stanley, Idaho where I was able to experience the pleasures and challenges of rural medicine in a mountain community. I learned to love hiking in the Sawtooth Mountains during my time there.

I loved growing up in and attending college in small agricultural communities. I'm excited to continue that trend as I grow and learn in Jerome during medical school.

Thank you for welcoming me into your town!

Maggie Brown
