MATT SNOW

Targeted Rural UnderServed Track

WWAMI TRUST UW MEDICINE

Montana	Entering Class of 2017

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Matt and is son, Henry

Hello Dillon!

My name is Matthew Snow, and I can't wait to learn about your community as I begin my first year as a TRUST medical student.

I grew up in the small town of Ryegate, in central Montana. I spent most of my spare time either hiking, playing the four sports my school offered, or helping out on my grandparents' ranch. After graduating high school, I took a government sponsored vacation to sunny Iraq, courtesy of the Montana Army National Guard. It was an excellent learning experience, and I came back with a sense of direction. I then went to Bozeman for my B.S. in Cell Biology and Neuroscience, where I discovered my interest in primary care and met my amazing wife, Nadean. Almost two years later, we welcomed our little boy, Henry, into the world, shortly before my college graduation.

After Bozeman, we moved to Harlowton so I could work as a certified nurse aide in an environment that would provide first hand experience in the rural health care setting. As much as we've enjoyed our time in Harlowton, we're all excited to be closer to the mountains again. We look forward to hiking around with our little boy, and I can't wait to start experiencing rural healthcare from a different angle.

Matt
