Targeted Rural Underserved Track

WWAMI
TRUST
UW MEDICINE

Idaho

Entering Class of 2017

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello McCall!

I am so incredibly excited to meet everyone, and get to work with you all over the next few years. Some general info about me, I am from Star in Ada County, population 6,600, and I have lived in Idaho my entire life. I love classic rock, hiking, soccer, skiing (both on water and snow), and I recently graduated from Linfield College, in McMinnville, Oregon, with a degree in Biochemistry and Molecular Biology. While I already miss my college family, I have greatly enjoyed being home and having some down time!

Growing up, my family spent a lot of time in McCall, whether it was for Brundage, camping, boating trips, or to celebrate the Fourth of July. I learned to ride a bike in Ponderosa State Park, and crashed more times than I can count learning to water ski on Payette Lake. As my birthday is in early February, I have celebrated it quite a few times at the Winter Carnival. I consider McCall to be my home away from home, and I can't wait to give back to the community that has given so much to me.

Currently I am working at a local coffee shop in Star, the Rusty Cup, which has been an interesting experience and only fueled my coffee addiction. I will definitely have some stories to tell! Once again, I can't wait to meet you all, and thank you for welcoming me!

See you this summer!
Megan Schwehr
