

MIRANDA BRADLEY

Targeted Rural UnderServed Track

WWAMI
TRUST
UW MEDICINE

Montana

Entering Class of 2017

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hi Butte!

I am so excited that I have been given the opportunity to work and learn in your community over the next few years! I was born and raised a few hours away in Laurel, MT, and after graduating high school in 2010, I left Laurel to begin school at the University of Montana in Missoula. I graduated with my degree in psychology and minor in biology in 2014, and have since spent my time finishing some medical school prerequisite courses as well as working at St. Patrick's Hospital in Missoula.

I have worked in multiple departments at St. Pat's during my 3 years there. I initially began working in admissions, and then acquired positions in the ED as an EMT, and later in the Echo Lab as an EKG tech. I am proud of my hospital experience and hope it helps me as I work with Dr. Brewer to better serve you and your medical needs.

While I typically do not have a lot of free time in my schedule, when I am not working I can be found traveling, exercising, and hanging out with friends and family. I am very excited to spend time in Butte and learn about the area while attempting to run up and down the hilly streets for exercise!

Thank you so much for allowing me to spend time in your community assisting with your medical care, and I look forward to meeting you soon!
