## Targeted Rural Underserved Track

WWAMI  
**TRUST**  
UW MEDICINE

Idaho

Entering Class of 2018

*TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.*

Hello All!

I am so grateful to be given the opportunity to learn from the Nampa community as a 2018 TRUST Scholar. I grew up in Weiser and moved to Arizona to attend Arizona State University in 2013, from which I graduated with my B.S. in Biochemistry and a minor in Psychology. For the past year, I have been living in Phoenix while working as a medical scribe in an Endocrinology clinic. After spending a few years in Arizona and participating in medical volunteer trips to South America, I discovered rural medicine was what I wanted to pursue. I missed Idaho and realized I could do my own part to address the lack of healthcare availability in rural communities much like the one I grew up in.

I am so excited to get to know Nampa's healthcare workers and community, and know I will learn so much from Dr. Staller, Dr. Bowman, and the rest of the team at Terry Reilly Health Services!

Thank you!

Lucia Carbajal
