UW MEDICINE

Eastern Washington —Othello

Entering Class of 2018

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello Othello!

My name is Julia Carter and I am very excited and honored to be a UW School of Medicine TRUST student.

I grew up in Centralia and Chehalis, WA. I am the youngest of four children and spent my childhood playing soccer, reading books, and hiking with my dogs. While in high school I participated in the Running Start Program. Through this program I was able to graduate my Associate in Biology from Centralia College. I then moved to Pullman, WA to begin my undergraduate career at Washington State University (WSU). While at WSU I worked as a research assistant studying the neurobiological effects of chronic stress and the foundations of the endocannabinoid system. I graduated in May of 2017 with my Bachelors of Science (BS) in Neuroscience and Bachelors of Science in Psychology. Since that time I have been working full time as a medical scribe.

I absolutely love to be outdoors, in any season, rain or shine. In my free-time you'll often find me hiking, skiing, gardening, or lying in the grass reading. In fact, one of life goals is to summit our beautiful Mt. Rainer (and hopefully a few more). I am also a great lover of all things food: cooking, baking, and of course, eating. My favorite sport's team is the Seattle Sounders and my favorite TV Show is The Office.

Finally, I have a deep love for science, medicine, and caring for others. I feel so lucky to have this opportunity and promise to work hard and do my best. Thank you very much for welcoming me into your community, I can't wait to get started!

Julia Carter

"Educating the mind without educating the heart is no education at all". —Aristotle
