Targeted Rural Underserved Track

WWAMI
TRUST
UW MEDICINE

Idaho

Entering Class of 2018

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hello Moscow Community,

My name is Katylynn Miller, and I have lived in Moscow for four years now while attending the University of Idaho. I was recently accepted into the University of Washington WWAMI Idaho TRUST program. I am incredibly excited to have the opportunity to work in this community that I have grown to know and love.

I will be graduating from UI in the spring of 2018 with a B.S. in Biology and Microbiology as well as minors in Spanish and Pre-Health Studies. I have worked as a certified nursing assistant and as a unit clerk in the area. I also volunteer in Moscow and Pullman. I have been volunteering at the Latah recovery Center, Family Promise on the Palouse, Regency Pullman Retirement Home and the Palouse Free Clinic all for a few years now. All of these experiences have given me an appreciation for the wonderful culture and community of this area.

I am so grateful to have been chosen to learn from the incredible health professionals here, and spend more time getting to know Moscow. I can't wait to meet everyone and to start learning.

Thank you for welcoming me into this program!

Katylynn Miller
