

MEGAN PHELPS

Targeted Rural Underserved Track

WWAMI
TRUST
UW MEDICINE

Idaho

Entering Class of 2018

TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hi everyone!

My name is Megan Phelps. I am so excited to learn and serve in the Hailey community! I grew up in Pocatello and recently graduated from the College of Idaho with a degree in Biology and Spanish. As a mountain girl, I am always up for a new adventure! In my free time, you can find me skiing, hiking, fishing, or running around with my dog, Macki. I have spent many summers working at a camp in the Sawtooths, and last summer I interned at the Salmon River Clinic in Stanley. There I learned the art of medicine and found a passion for serving patients in a rural community. I also found the joy of working with children and the importance of serving in a place where there is a need when I taught English in the Dominican Republic. I hope to use the lessons I have learned to give back to the Hailey community.

I am so grateful for this opportunity. Thank you for teaching me and welcoming me into your community! I am looking forward to meeting you,

Megan Phelps
