TRUST seeks to provide a continuous connection between rural, small city underserved communities, medical education, and health professionals in our region. Our goal is to create a full-circle pipeline by guiding qualified students through a special curriculum that connects continuity communities in WWAMI to the University of Washington School of Medicine and its network of affiliated residency programs in an effort to help meet the workforce needs of the region.

Hi all, my name is a Sami and I’m thrilled to have Livingston as my TRUST site.

I grew up in Red Lodge, spent a few years of high school in Billings and came to Bozeman for college. In Bozeman I competed on the track team, did research and worked as a nurse aide at the hospital before applying to medical school. I am currently still in Bozeman, working at a dermatology clinic. Throughout college I found myself visiting Livingston often for live music, good food and to enjoy the beautiful area. I can’t imagine a better place to begin my medical training.

In my spare time, I love to explore our great state by backpacking, hiking, cross country skiing and snow shoeing. I can’t wait to get to know all of you, who chose to live in such a vibrant community. See you all very soon!

Sami
