

OMM FUNDAMENTALS FOR HEALTHCARE PROVIDERS

REGIONAL HANDS ON WORKSHOP JULY 10, 2019 | PNWU YAKIMA, WA

With the Single Accreditation System implementation, more MDs are matriculating into ACGME Residency programs with Osteopathic Recognition. Both MDs and DOs are requesting more osteopathic education. This hands-on workshop introduces basic concepts and techniques associated with Osteopathic Manipulative Medicine.

This workshop is collaboration between Pacific Northwest University of Health Sciences and WWAMI Family Medicine Residency Network, designed to foster osteopathic-focused learning environments in residency programs and support programs with Osteopathic Recognition.

Participants experience an enriched learning environment that incorporates kinesthetic learning with lecture and hands-on group work at OMT tables.

AMA/AOA CME pending.
