

How to claim AAFP CME Credit for teaching

<http://www.aafp.org/cme/about/types.html#credit-teaching>

AAFP treats teaching CME as a live activity (can be substituted for a conference) and allow teachers to claim 60 prescribed credits (Category 1) for each 3 year cycle. You can either report all 60 hours in one year or spread them over three years. Each hour spent with the student counts as one hour for AAFP CME reporting.

1. Go to Report my CME (Need to Login first)
2. Click on Teaching (Under Individual activities)
3. Enter Title - something like "Teaching UWSOM medical students"
4. Enter number of Credits
5. Enter Start and End dates (This can be aggregated for all student teaching so if you mostly teach throughout the year it is fine to enter Jan 1 thru December 31)

Here is information about claiming live AAFP CME Credit as a result of attending the EOQ Meetings:

Visit the **CME** tab on the [AAFP site](#) → **Report CME** → **Report CME by Category** → Click "Course Conference or Series" → Enter start date and state, search "live events".
