

Health Promotion Matters

Newsletter of the UW Health Promotion Research Center

JANUARY 2024

Message From the Director

Happy New Year!

I hope that all of you had a joyful holiday season and feel ready to plunge into 2024. I'm very pleased to (re)introduce Health Promotion Matters, the HPRC newsletter. After a long hiatus, we plan to share Health Promotion Matters a few times each year to keep you and your partners up to date on all things HPRC. This edition of Health Promotion Matters highlights several of our 2023 success stories.

The new year is a great opportunity for new ventures and new projects to advance the health of our communities. I'm sure it will also bring us exciting new opportunities to work together. All our efforts to promote health and increase health equity depend on our partners and their wisdom, experience and sharing the work with us. Thank you for your partnership and engagement with HPRC. I wish all of you a happy and auspicious 2024!

Peggy Hannon, PhD, MPH
Director of the Health Promotion Research Center

Anti-Racism Work at HPRC

HPRC's Change Team gathered feedback from HPRC's Community Advisory Board members on anti-racist work to better understand community leaders' experiences and priorities for the Change Team.
