

Lining Up: Check in at the Touchdown Terrace. From there you can proceed to your position on the Outdoor Practice Field.

Line up bachelor candidates in four parallel lines behind you. Ensure all the lines in your group have the same number of students.

Students wishing to sit together must march in the same line, not next to each other in different lines, as each line goes to a different seating section.

Listen for instructions from the Lead Lining Up Marshal over the P.A. system. You'll begin moving towards the stadium at about 1:20 p.m.

Processional: When you reach the entrance to the stadium, look for the marshals who will tell you when to enter. All the lines are stanchioned from the entrance to the west end of the field. When entering march briskly to the music.

Marshals at the west end of the stadium will help keep the lines moving and direct you down a particular aisle, as shown on the diagram. As you march toward the stage, seating marshals will take over your line of candidates and seat them. You will then proceed to the stage, where stage marshals will seat you.

Recessional: File out with the faculty to the area in back of the Touchdown Terrace. (See red path on diagram.)
