

Discovering the science of the aging brain.

Understanding, protecting, and improving.

On June 5th, unlock the mysteries of an aging brain as we delve into the latest scientific discoveries and learn how the intricacies of neuroscience lead to new understandings, treatments, and programs to improve brain health.

Explore the science of brain health.

Don't miss this virtual event featuring experts from Seattle's Allen Institute and the University of Washington's Memory & Brain Wellness Center. You'll walk away with a more expansive view of brain health and how today's research informs tomorrow's breakthroughs.

Discovering the Science of the Aging Brain

Thursday, June 5, 2025 | 11:00 a.m. to 12:30 p.m.

The event is free, but preregistration is required at **aarp.org/brainhealthwa** or by clicking on the QR code to the right.
