

Alzheimer's Association Education

Hosted by the UW Memory & Brain Wellness Center

An education program presented by the Alzheimer's Association

Effective Communication Strategies

Improving communication with persons with dementia can lead to a decrease in dementia-related behaviors and distress and to improved quality of life for both care recipient and care partner. This class will help participants learn to understand and enter the world of the person with dementia and implement techniques for improving communication. It will also provide a brief overview of dementia basics.
