'FOUND OBJECT' PUPPETRY WORKSHOP

Throughout varied times and cultures, puppets have been used for self-expression, storytelling, and social change. In this workshop for people with memory loss and their families, explore this ancient art form as we bring puppets to life using everyday objects. We'll use a variety of art mediums, repurposed items and craft supplies to create unique "found object" puppets. A free workshop, facilitated by SilverKite Community Arts teaching artist Valencia Carroll, with support from Full Life Care.

10:30AM - 12PM TUESDAY SEPT 26

The Memory Hub | 1021 Columbia St, Seattle
