

Wednesday

June 13, 2018

4 -5pm

Health Sciences Building

Turner Auditorium, D-209

## Dr. Charlie Bernick, MD, MPH

Associate Director, Cleveland Clinic Lou Ruvo Center for Brain Health

### Head trauma and the risk of neurodegeneration: hot topic or hot mess?

#### Speaker Bio

Charlie Bernick completed his undergraduate degree in history at Rice University, followed by his MD degree from University of Texas Southwestern.

Dr. Bernick received his neurology training at the University of Miami. For the past 25 years, he has worked in Las Vegas, where he established a statewide system of Alzheimer's research and care, first with the University of Nevada School of Medicine and then for the past 9 years with the Cleveland Clinic. Dr. Bernick has a particular research interest in the long term effects of repetitive head trauma.
