

Title: Photonics -- From Micro to Nano

Speaker : Lih Y. Lin, Associate Professor
Department of Electrical Engineering
University of Washinhgton

Date: November 19, 2004, 2:30-3:30PM

Place: MEB134

Abstract:

In this presentation, we will give an overview on MEMS for Photonics, focusing on applicatioins in optical fiber communications. Then we move onto our current work in nano-photonics.
