

MISCARRIAGE MANAGEMENT KIT

For early pregnancy loss management

- Enables a simple procedure to be performed in the Emergency Department or office setting and moved out of the Operating Room
- Significantly decreases cost of procedure and enhances operational efficiency
- Saves time while improving patient care
- Enables more expedient management of miscarriage
- Proven Ipas technology that has been in use for 40 years
- Clinically proven to be safer and as effective as sharp curettage

BENEFITS OF THE MISCARRIAGE MANAGEMENT KIT

For the Provider

- Decreased cost per case
- Reduced procedure time
- No waiting for Operating Room time
- Minimal anesthesia requirements
- Highly portable

For the Patient

- Reduced wait times – under the control of the physician not the Operating Room
- Does not require full sedation
- Reduced follow-up requirements
