This is \_\_\_\_\_ and \_\_\_\_\_.  
father mother

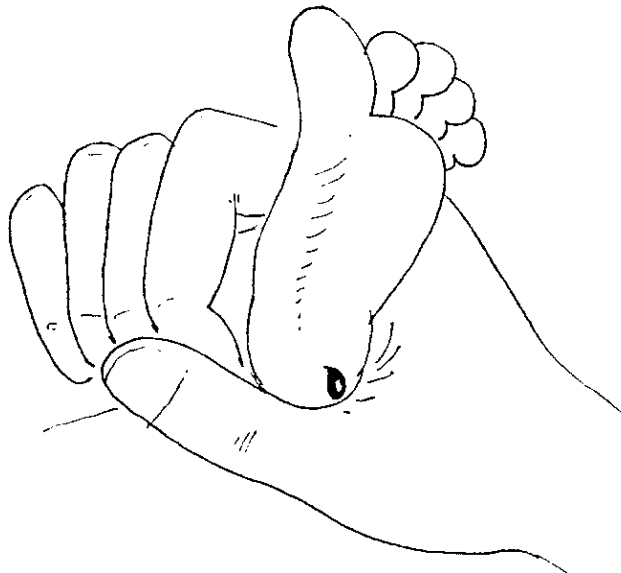

This is \_\_\_\_\_, their brand new baby.  
name

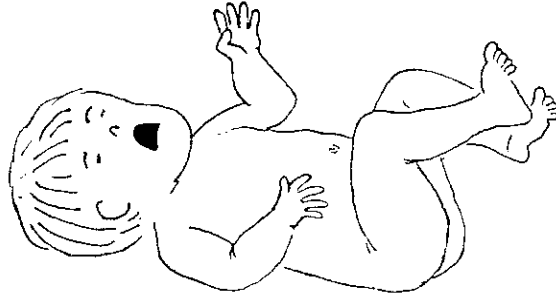

When \_\_\_\_\_ was born the doctor took  
name

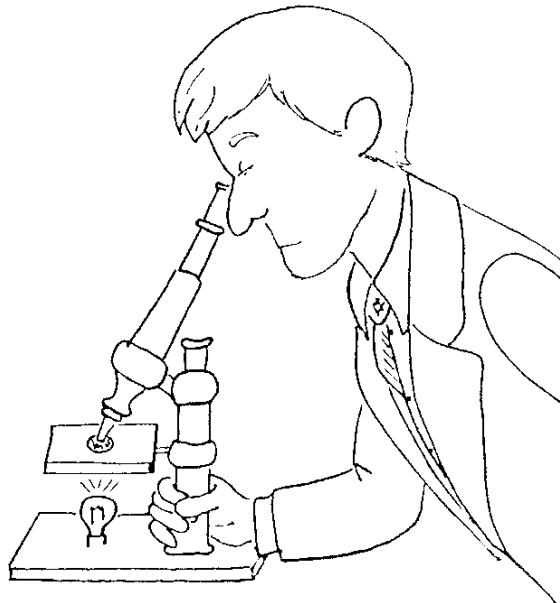

a tiny drop of blood from baby's foot.

Oops, baby \_\_\_\_\_ did not like that!  
name

The doctor looked at baby \_\_\_\_\_ 's blood very  
name  
carefully. He counted lots of phes. Baby \_\_\_\_\_ had PKU.  
name

The doctor gave baby \_\_\_\_\_ a special milk to drink.  
name

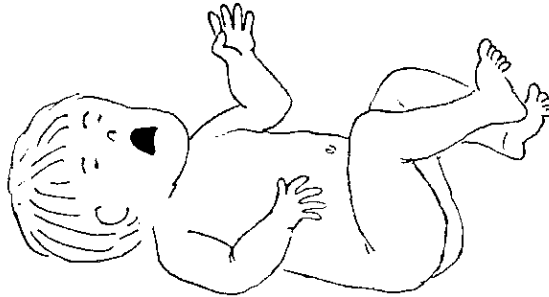

Baby \_\_\_\_\_ likes the special milk. He/she drinks it every day.  
name

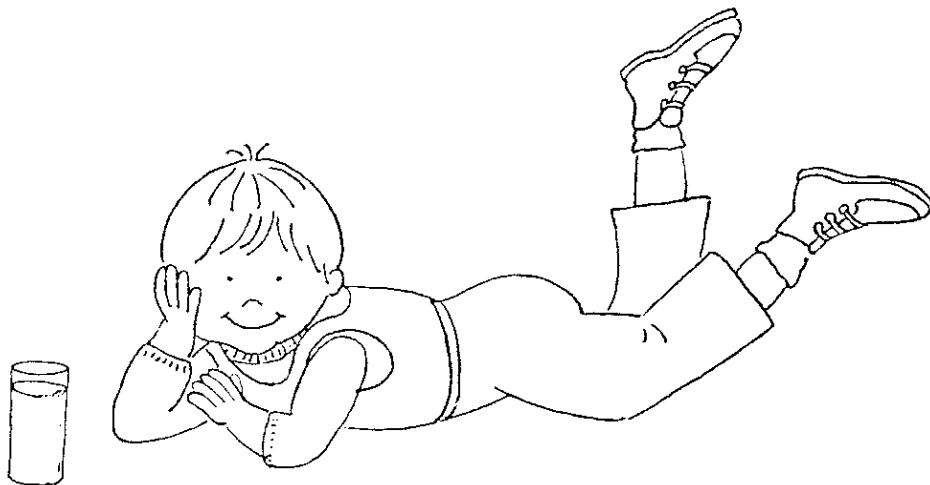

The special milk helps baby \_\_\_\_\_ to grow big and be very healthy.  
name

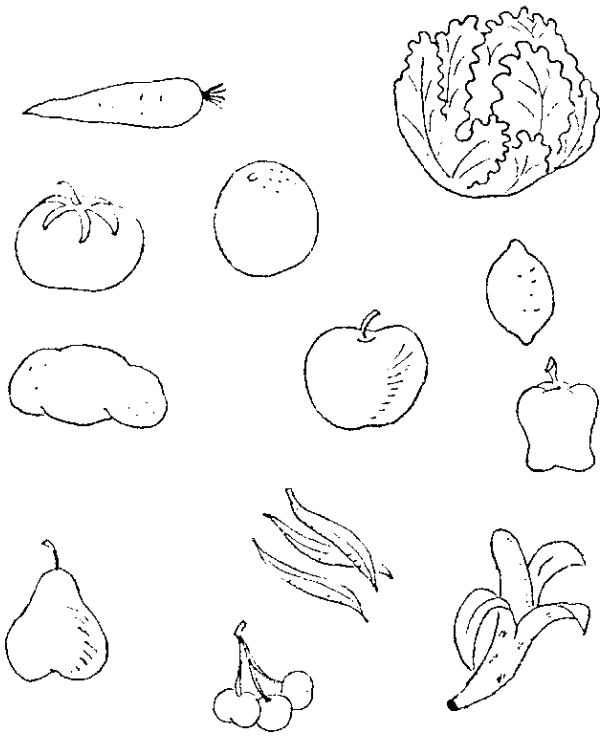

If baby \_\_\_\_\_ does not drink the milk every  
name  
day, he/she becomes very sad.

As baby \_\_\_\_\_ gets older he/she still has PKU. \_\_\_\_\_  
name name  
drinks the special milk each day. \_\_\_\_\_ 's milk will help him/her  
name  
to keep growing and building strong muscles.

\_\_\_\_\_ also eats many  
name

foods. Because \_\_\_\_\_  
name

has PKU, he/she must eat low

phe foods.

Drinking special milk and eating low phe foods

makes \_\_\_\_\_ very happy.
