## Discussion

### 1. Health Fee Updates

**Haley** explained that the Health Fee will be split 20-40-40. 20% for LiveWell, 40% for the Counseling Center, and Husky Health Center.

- **Aiden** added that this was not the original split
- **Tammy** wanted to know what the previous split was
- **Haley** said LiveWell gets \$200,000 from SAF, the Counseling Center gets around 2 million, and Husky Health gets \$7 million

**Haley** gave updates about each health unit.

- The Counseling Center plans to hire additional counselors, psychiatry providers at a rate of \$120,000 per therapist and \$260,000 per psychiatrist. They also plan to help with coordination and decentralize the campus, hire staff to build a culture of care at an estimated cost of \$115,000
- Husky Health will hire additional physicians at a cost of roughly \$500,000 per physician annually. They'll also invest in care coordination and insurance navigation at a cost of \$390,000 per year
- LiveWell will be expanding its suicide prevention program at a cost of \$125,000, adding alcohol and other drugs educational consults at a cost of \$125,000. They also plan to bring the confidential advocate program back. **Haley** clarified that hiring people for these new programs is one of the reasons for the high cost

**Aiden** gave an approximate estimation of what the Health units were receiving before from SAF. Husky Health had 71%, the Counseling Center had around 27% and LiveWell had 2%.

- **Haley** explained that the units did say they'd change the split if they got the Health Fee

**Riley** added that the 20% going to LiveWell would exponentially expand their services.

- **Aiden** agreed this would be a great increase for LiveWell and a decrease for Husky Health Center, expressing their concern
- **Haley** added that LiveWell plans to move to a bigger space, hire more people, and greatly expand their programs at a cost of \$400,000
- **Tammy** wanted to know what position they have now
- **Haley** responded that they currently have peer health wellness coaches and a peer health manager. There are no dedicated staff for the alcohol and drug consults and the suicide prevention programs
- **Riley** commented that the scale for this is really small. **Haley** agreed
- **Aiden** is concerned that Husky Health is not getting enough money to improve its services with the new funding distribution.

**Gen** asked if there are student interactions, such as more outreach for health services.

- **Kristian** asked to make last year's proposals available
- **Haley** responded, saying that the proposals are available on the SAF website

**Helena** wanted to know how the increase in staff is reflected in the number of students they provide service to.

**Haley** found out that for the Health Fee at Washington State University (WSU), while students do pay some out-of-pocket for physical health, they get unlimited counseling for no out-of-pocket cost.

- **Aiden** asked for the rate, such as how many appointments a student gets per month
- **Haley** said it's limited by demand, the number of appointments WSU provides. At UW, students only get 6 appointments.

## **Announcements**

### **Unit Visits:**

1. GPSS
2. ASUW
3. Student Media
4. Husky Health
