HEAR VIRGINIA PETERSON AT THE ORGAN:

SATURDAY, 6 TO 9 P.M. - SUNDAY, 5:30 TO 10 P.M.

Dear Queen Candidate,

Congratulations on being selected to run for the AMS Autumn Harvest Festival Queen. It is really quite an honor. I thought I had better write and let you know what you have to do. Thursday, October 15, the Tawahsi will take your picture which will be posted around campus. Listen in chapel tomorrow to find out what time they will be taken because we don't know yet. Then Thursday, the 22nd, in AMS chapel you will be put on display in front of all the boys who will then vote on you and narrow their selection down to five lovely girls.

For the AMS chapel you will wear dressy dresses like what they wore for Homecoming elections. But no formals. If enough of you want to wear suits we may change it. But for the picture tomorrow you can wear anything.

Next Monday or so we will have a meeting and I will give you the full scoop. If you have any questions just contact me. I'm in the Student Body Office 2nd, 5th and 6th or in Hill 571 pr Hill Box 167.

I know running will be lots of fun cause we have a lot planned,

Sincerely,

Kathy Swanson

Frosh 5 Join <u>₹</u> Rights Group

THE COUNCIL approved af-filiation with the National Peo-ple to People Program, an organization devoted to better understanding and exchange be-tween American and interna-tional students. Jim Rouse, who represented SPC at a regional People to People conference re-cently, outlined the philosophy and programs of the organiza-tion, before recommending SPC's affiliation. Thus far, over \$1,600 has been raised for the program. A target of \$1500 has been set for flying the two Outreach representatives chosen last week to Venezuela. Jeff Acorn, a freshman pre-major, will spend his summer vacation in Mississippi for the Student Von-wiolent Coordinating Committee helping Negroes.

The work will be part of a nation-wide push to concentrate on the racial situation in Mississippi. One of the programs Acorn expects to work in will be voter registration. (Only 12 percent of Mississippi's Negro population is registered). Other areas of service planned for SNCC volunteers include "freedom schools," "community centers" (recreational and public health centers) and "special projects" all designed to raise

the status of the Negro in Mississippi.

ACORN WAS encouraged to

work for SNCC after hearing about the work at a meeting at the University of Washington. He must provide his own transportation to Mississippi and carry \$150 for personal security. He will live in homes of various cooperating Negroes.

"Mississippi is a closed society which refuses to reform," Acorn said. "There is no hope for the Negro except from outside sources. After hearing about the need and the possibilities, I felt I had no choice but to do what

Send Five?

There seems to be a growing movement on campus to send all five of the final Operation Outreach candidates to the Venezuelan mission field for the summer.

While such zeal may be admirable, some consideration should be given to the value of sending all five men to the same area.

ently to acquaint the students of Seattle Pacific College with the problems and challenges of service on the mission field. Other purposes, for example that of orienting the two representatives to their future lives as missionaries must be incidental, for the project, supported entirely by student contributions, must aim its effectiveness at **ALL** of the students.

One of the problems in a program like this is that it is difficult to relate the summer's experiences in a way that will be relevant and meaningful to a large segment of the student body. Sending all five of the people to the same field will not help this problem.

THE EFFECTIVENESS of this summer's Outreach program would be enhanced if the three remaining candidates could be sent to other fields with different problems, different approaches and different challenges.

May 8, 1964

Seattle Pacific College Seattle, Washington 98119

May I take the liberty to make some comments and ask some questions regarding the editorial in the May I issue, "Bible In Schools"? Let me first identify myself: I am currently a graduate student at SPC. I am also a pastor of the Orthodox Presbyterian Church — an evangelical body here in Seattle.

FIRST OF ALL, these questions arise in my mind regarding that editorial:
(1) How will putting the TRUTH of God in the schools harm the schools?
(2) Why is "merely putting the Bible in the schools" a trap?
(3) Are evangelical Christians committed to witness on an "inter-personal" basis alone? If so, why did God lead men to put His TRUTH down in such an "impersonal" form as a book?
(4) Do not public schools and the people in them need the TRUTH even though they are "public"?

"public"?
(5) Is it "evangelical" reasoning to argue that the false teachings of the Koran, book of Mormon etc. should be put into the schools if the Bible is? I thought the evangelical position was that the curse of God is upon every other "gospel" but the Word of God.

(6) Did not the Jews "honor God with their lips..." and yet God still had his witness with them in the form of the OT Scriptures? Is not all education taking a "calculated risk" in this regard? Might not students misunderstand and fail to apply their. Chemistry, History, or English? Should these things not be taught because it might lead the students to honor Chemistry etc. with their lips, when their heart is far from it?

THIS IS ONE of the most unevangelical appeals in the name our evangelicalism that I have read. I do not think for a moment that placing the Bible in

school is the **panacea** for all our problems. But the evangelical position is that the Bible is the TRUTH and ought not to be separated from any context of life. I do not know "GH" is, or what your policy is in printing letters on your editorials, but I do urge you — since you have stuck your neck out in this — to print something on the other side of this issue. I do not care about this thing personally in that I am not a part of the Becker amendment organization, but I am interested in straightening out what is the **evangelical** stand relative to the Bible and our schools.

—D. Robert Lindhers

-D. Robert Lindberg

Having read your editorial (April 24) which is enclosed in this letter, I am concerned over your attitude presented toward the student body.

I am glad that we do not live by rules alone—but by the inspired Holy Word of God. Thank God for the "Christianity of McKinley Auditorium."

THAT KIND of Christianity tells of a loving Savior, the Lord Jesus, showing the "true love of Calvary; the love that took Him to the cross for your sins and my sins.

I Corinthians 13 tells of "the true love;" one cannot have this life searched by the Holy Spirit. Only when we receive the Lord Jesus as personal Savior and Lord of our lives do we understand the central message of love as you present it in your editor to grace are ye saved through faith and that not of yourselves; it is the gift of God. Not of works lest any man should boast.

THANKS BE UNTO God, that

we still have men like Dr. Don at SPC. I doubt if you or I will ever come to a place where we have indulged in too much introspection.

We must remember that only by the precious blood of Christ are we saved. This is a set pattern of religious experience for salvation.

-Ronald L. Fair

In consideration of your editorial of April 17, regarding "Stifling Patterns of McKinley Christianity," I think it important to consider the problem from both the positive and negative points of view. In this article I desire to consider it from the positive view.

WHILE IT may be true that the "Christianity of McKinley Auditorium" is too rigid and relevant only to its own following, I do not feel it rational to be otherwise, since one must witness to one's own experience and interpretation of the Scriptures

tures.

I think we, who are not of the Free Methodist organization, should remember that the school has a basic responsibility to its denomination and loyal supporters, who have particular concepts of Christianity, and desire that the school should express these concepts.

I DO NOT feel we have the right to expect the Administration to express our particular views, religions or non-religious. Yet, in keeping with a free academic atmosphere, we should not be hindered from communicating our views.

pears that the Administration is "bending backward," to present a Christianity which is relevant yet acceptable to all who hold Jesus Christ central and basic to Salvation from sin and fellowship with God.

—John W. McCollough

Admissions Directors Face **Problems** Maintaining Ideals

BY GENE MARR

A remark by Dr. Bob Smith during spiritual emphasis week that the key to the continued Christian emphasis on a campus is admissions has focused attention on the college's admission procedures.

apply.

It was announced this week that admissions of new students for next year are up 159 over last year. The total for April 27 was 674 compared with 515 for the same period last year. However, the rate of incoming applications has declined somewhat over last year which might indicate students. year which might much dents are applying earlier.

THE BOARD OF TRUSTEES has set a limit on the freshmen class of 500. Three-hundred twenty-five of those who have applied have been accepted thus

As to how the imbalance can be righted Maier suggested the best way was to increase the total applications which would give the department more men from which to choose. Other solutions to the problem are an increased emphasis on the college's science program, and increased recruitment in the junior colleges. Maier also suggested the possibility of increasing the scholarship allotment to freshmen men.

High school gr entering freshme

FRESHMAN

High School G.P.A.

According to admission's director, Ray Maier, the percentage of rejection is about the same as last year. (Approximately ten per cent were turned down last year.)

"I think there are many reasons for this," said Maier. "For one thing we

one of the problems facing the admissions department is the overbalance of women to men in the freshman class. More than 100 more women than men were enrolled in the freshmen class last autumn. According to statistics many more women apply thn men.

MAIER AND DWAINE BASSET, newly appointed admission's director for next year, have gone to all Washington junior colleges, several in Oregon and to 13 in Northern California. They have contacted 385 high schools in Washington, Oregon and No. California this year. "By far our greatest source of admissions comes from our high school visitation program," Maier said.

3.75-4.0 3.50-3.74 3.25-3.49 3.00-3.25 2.75-2.99 2.50-2.74 2.25-2.49 2.00-2.24 Below 2.00

Another concern which faces the admissions director and the administration of the college is the religious attitudes of the coming students. "WE turn down

gram here which attracts women." Maier also pointed out that other liberal arts colleges which do not emphasize their science programs have fewer men

general pre-selection that takes place "We try to impress upon high school counselors the type of school SPC is. One difficulty is there is a more relaxed attitude among many churches about standards today than a few years ago." Basset commented on the suggestion that SPC has a "bi-model" student body. Some professors have claimed the curve of their tests shows a large bulge at the top and the bottom with fewer than would normaly be expected in the middle. "High school grade point averages for the current freshmen class would indicate this," Bassett said. According to statistics on the class 45.70 per cent had high school gpa's of 3.0 or better; 30.86

by Maier included the possibility women more readily conform to the social patterns of the college; and that there are more young women in the evangelical churches than men who will consider SPC in the first place.

plentiful than previously, according to Vice President Otto Miller. "We now spend more than \$116,000 in unfunded student aid and we cannot increase it," he said. Freshmen will be given aid in accordance with individual need for the first time next year. This will mean considerably more than the standard sum for the needy scholar, and substantially lass for the student with adequate financial resources.

ancial resources.

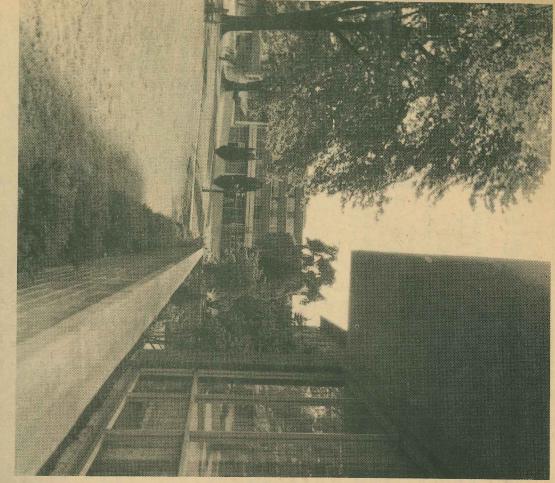

The college has added a \$10 non-refundable registration fee this year. The fee is intended to discourage students from applying without due consideration and to help underwrite admissions' expenses.

Miss Idemen, an Italian grammar and literature major, was limited exclusively to Italian language courses while attending college versities in Turkey are virtually free to all students passing a She noted a marked difference between the Turkish and American education programs. Uniin her country.

fore graduating. This is true primarily because classes are held only two or three hours a day, and, according to Miss Idemen, are not as difficult as she said. "Dating is more common in the universities." Unlike America, however, Turkish coeds will seldom quit college before graduating. This is true primarily because classes are ences in the dating patterns of the two countries. "The society frowns upon dating in intermediate schools and high schools," SHE ALSO pointed to differ of

those in American colleges.
Miss Idemen lives with her sponsors, Col. and Mrs. Dutton, at 2525 43rd Avenue West.

"DATING IS more common in Turkey's Universities," said Tulin Idemen.

Let's say for a minute, this is you.

Once you wear the gold bars of a second lieutenant in the United States Air Force, what's in store for you?

Well, you may fly an aircraft entrusted with a vital defense mission. Or you may lead a research team tackling problems on the frontier of knowledge. You'll be helping to run an organization that's essential to the safety of the free world.

Sounds like you'll be called on to shoulder a good deal of responsibility, doesn't it?

But when you come right down to it, that's what your college

U.S. All

years have been preparing you for. You've got ability and a good education. Now's the time to put them to work!

If you're not already enrolled in ROTC, you can earn your commission at Air Force Officer Training School—a threemonth course that's open to both men You'll have every opportunity to prove your talents in the Air Force. By doing so, you can put yourself and your country ahead.

Air Force you must be within of graduation.

Professor Jerry Gill, who will be leaving SPC in August to study at Duke University, is a man who believes in the value of discussion.

As program chairman of Le Rapport, he has had an opportunity to see the effectiveness of discussion between Christians and non-Christians in a neutral atmosphere. "I first became interested in such a program when I heard a group of people talking about the possibility of finding a place where Christians and non-Christians could meet

THE IDEA of a coffee house was adopted because the atmosphere would be fairly neutral. This program has proved effective. We've had some lively discussions."

During the four years he has been at SPC, Gill has noticed several changes, among them a trend for the student to be more broadminded. "Although

too rapid and too extreme change is dangerous, I think that this changing attitude has been good. It is more realistic for one thing. The student is in touch with a better cross-section of people now," he said.

"I am also excited about the change in the Falcon during the past two years. It is becoming more of a student publication, rather than merely a public relations sheet. I appreciate the fact it is now dealing with local national and international issues and is expressing student opin-

"I AM AFRAID people are too apt to sit in judgment upon students who are critical of the college. We shouldn't get excited about something that is as natural and as necessary as this attitude. Far too often we are afraid of letting anyone know that we have criticism

on the campus; but criticism is the heart of student experience. It is a necessary part of educa-

I know there is a risk in criticism," Gill continued, "but in real education you have to run the risks."

GILL, WHO recently received a Danforth scholarship to study for his doctorate of philosophy degree in religion at Duke University in Durham, North Carolina, hopes to write his thesis at Oxford University. "There is an outside chance that I will be able to do this, and if I can, I hope to be able to squeeze in a month of travel in Europe. The Danforth grant allow—a one month paid vacation."

Gill is especially interested in the area of religious language and plans to write his thesis on this subject.

held May 6-9 at a resort in Temple, Arizona, served as an orientation session for student body presidents from the PSPA member colleges.

The convention was devoted to intensive study of the various problems concerning student government: Particular emphasis was placed upon the subject of group dynamics or communicating groups including such areas as how the president can help solve conflicts between different factions of a committee and how the president works with the committee.

Considerable time was also spent discussing the perspective of a leader, emphasizing leadership styles and the personal qualities of a leader.

Children's

Drama

Scheduled

"Many Moons" is Charlotte Chorpenny's three - act adaptation of a story by J a mes Thurber. It is a fairy tale about little Princess Lenore, played by Diane Smiley, who wants the moon. The King, Malcolm Willems, and his Wise Men vainly attempt to obtain the moon. Finally, the humble Jester finds the solution.

The play will be presented arena style, in the center of the room with the audience surrounding the stage.

Best in Bibles, books, records and Sunday School materials
FRIENDLY COURTEOUS PERSONNEL
Owned and Managed by SPC grad JESSIE LEISE

MORNING CHEER BOOK STORE
1514 2nd Avenue MA 4-1718

Between the scenes there will be community singing of the old songs of the '90's and special entertainment.

Admission for the two plays will be 50 cents.

"ONLY AN Orphan Girl," by Henning Nelms, is a melodrama set in the gay nineties. Chapman said the typical old-time drama includes "dynamite, foreclosure, blizzard, and the deadly sawmill."

Joyce Walton, a sophomore English major, has been selected as one of the two American Girl Scouts to attend an international gathering for Girl Scout leaders in Bogota, Colombia, from July 30 through August 16, Before going to Colombia, Miss Walton will fly to New York for orientation and a visit to the World's Fair in July. By GLORIA HELLER International To Represent her native country, and will be prepared to teach folk dances, crafts, and songs. Miss Walton will show patchwork quilts and teach the Latin-American girls the folk song, "If I Had a Hammer." Conference Scouts

MISS WALTON HAS been a scout for 10 years. During 1962-63 she attended school at the Colegio Americano in Ecuador and helped in the reorganization of the Girl Guides of Quito. She also assisted three troops of Ecuadorian and American
