

Improving Social Navigation and Social Skills Instruction

Improving Social Navigation and Social Skills Instruction

The “unspoken” rules governing social skills are quite challenging for individuals with Autism Spectrum Disorder (ASD). In this workshop, participants will learn:

- How to assess social skills and interpret others’ social skills assessment
- Characteristics of evidence-based social skills programs
- How to apply social skills strategies in everyday contexts: classroom, playground, community

SPACE IS
LIMITED

WHEN

Saturday
March 3, 2018
9:00AM – 12:00 PM
