

# Academic and Organizational Success for Secondary Students

Difficulty turning in assignments? Disorganized backpack? Poor time management? In this workshop, participants will learn how executive functioning impacts students' ability to plan and organize for success. Participants will learn strategies to be implemented at home and school to support executive functioning and organizational success. This workshop will also outline strategies that can be used to help bridge the gap between home and school. Additionally, participants will learn age appropriate systems of reinforcement to motivate and encourage independence.

## Course Objectives:

- Learn why organization is difficult for individuals with autism spectrum disorder (ASD)
- Strategies to implement at home and school to support organization and time management
- Systems of reinforcement to encourage independence

**Who should attend:** Parents and school personnel interacting with secondary school age individuals with ASD

**Content level:** Beginner

**Clock hours:** OSPI clock hours available for an additional fee

## WHEN

Friday, August 23, 2019
