

# ABA: The Basics

Curious about Applied Behavior Analysis (ABA)? Do you have a desire to learn and practice evidence-based strategies for teaching children with Autism Spectrum Disorder (ASD) and other related developmental disabilities? If so, this webinar is for you! This training is specifically designed for professionals interacting with preschool and elementary-aged children with ASD. The webinar will begin with a short overview of ASD including core symptoms, strengths, challenges and how ASD symptoms impact learning and behavior. Then, an introduction to ABA will be presented including an overview of different ABA teaching strategies and basic behavioral principles used in this therapeutic approach.

## Course Objectives:

- Learn how the characteristics of ASD impact learning
- Gain a basic understanding of ABA principles
- Learn how to use fundamental behavioral strategies including teaching loops, reinforcement, and prompts

**Who should attend:** Parents, providers, and educators interacting with individuals with autism

**Content level:** Beginner

**Clock hours:** WA State approved clock hours available for an additional fee

## WHEN

July 21, 2020

## Follow-Up ABA Webinars

Have you attended one of our ABA Basics workshops? Do you want to dig deeper into specific topics related to ABA? The University of Washington Autism Center will be hosting 2-hour follow up webinars on teaching strategies and systems related to ABA. These sessions are intended to help participants come away with a deeper understanding of each topic. Attend as many of the follow up sessions as you want.
