

Incorporating Principles of Neurodiversity into ABA Practice

Are you a BCBA providing ABA services in the home, school, or clinic setting? Have you heard the criticisms of ABA from adult autistic advocates? Do you want to build an inclusive and compassionate ABA practice but are unsure where to start? In this webinar, we explore the current disagreements about autism, ABA, and neurodiversity and learn more about how to incorporate principles of neurodiversity into your ABA practice.

Course Objectives:

- Operationally define ableism and provide one example of ableism
- Operationally define the "Double Empathy Problem" (Milton, 2012) and provide one example
- Be able to identify 1 problem with ABA from each area: inherent problems, practice problems, and long-term problems
- Create 1 action step to incorporate principles of Neurodiversity into their ABA practice

Who should attend: BCBAs and other professionals working with autistic clients of all ages

Content level: Beginner to intermediate BCBAs

CEUs/Clock hours: Fee includes 2.0 BACB Ethics CEUs and/or 2 WA State approved clock hours

Instructor: Kathryn Holley, MEd, BCBA

WHEN

Monday, June 21, 2021

12:00 – 2:00 PM PT

Recording available post-event
