

Incorporating Autistic Perspective and Principles of Neurodiversity into ABA Practice

Incorporating Autistic Perspective and Principles of Neurodiversity into ABA Practice is a webinar series for BCBAs and BCaBAs. The series will explore important topics related to the intersection of autistic self-advocacy, neurodiversity principles, and ABA interventions. Participants will have the opportunity to evaluate their current practices and reflect on what it means to incorporate lived experience and evidenced based practices into an effective, ethical, and empathetic ABA practice. BACB CEUs included.
