

Incorporating Autistic Perspective and Principles of Neurodiversity into ABA Practice

Incorporating Autistic Perspective and Principles of Neurodiversity into ABA Practice is a webinar series for BCBAs and BCaBAs. The series will explore important topics related to the intersection of autistic self-advocacy, neurodiversity principles, and ABA interventions. Participants will have the opportunity to evaluate their current practices and reflect on what it means to incorporate lived experience and evidenced based practices into an effective, ethical, and empathetic ABA practice. BACB CEUs included.

Session Title
A New Lens for Understanding Evidence-Based Practice
Assessment for ABA Programs
Goal Development for ABA Programs
Building an Antecedent Focused ABA Practice
Consent is Cool!
Effective and Ethical Practices in Reinforcement

Webinars available for viewing until March 31, 2022.

Who should sign up: BCBAs and BCaBAs; providers who work with autistic individuals using ABA strategies

Modality: Online asynchronous
