

Talking to Your Child About Their Autism

Watch a 45-minute recorded video then join UW Autism Center's Dr. Sara Woods for a live Q&A session. Learn how to talk to your child about their autism in this free webinar. We share ideas for how to promote neurodiversity at home, how to help your child understand what it means to be autistic, and strategies for equipping your child to be their own advocate. Lots of resources are included, as well as useful insight from autistic advocates like Dr. Lamar Hardwick, Dr. Lucas Harrington, Timotheus T.J. Gordon, and Ivanova Smith.

Live Webinar: April 27, 2023, 7:00-8:00 PM PT

COST: **FREE**

Meet the Instructor

Dr. Sara Woods, Ph.D., is a clinical psychologist at the UW Autism Center in Tacoma. She received her PhD from the University of Windsor and completed a postdoctoral fellowship at the University of Washington Center for Human Development and Disability Child Development Clinic in the Leadership Education in Neurodevelopmental Disabilities Program. Dr. Woods provides neurodiversity-affirming comprehensive assessments to people of all ages (toddlerhood through adulthood), as well as providing therapy, consultation, and education to families and providers. Sara has published research on autism, reading, stereotypes, and emotion socialization. She is passionate about making psychology accessible to all and building bridges between communities.
