

Neurodiversity Affirming ABA ECHO

Now, more than ever, BCBAs and ABA providers are on a path to provide compassionate, person-centered ABA services. On this path, providers are encountering a vast amount of information about past, current, and future ABA practices. Please join our Project ECHO (Extension for Community Healthcare Outcomes): Neurodiversity Affirming ABA!

Each session will include brief didactic presentations exploring important topics related to the intersection of autistic self-advocacy, neurodiversity principles, and ABA interventions. Participants will present de-identified cases and engage in case consultation in a multi-disciplinary group of ECHO Hub Team members and peers.

Who should attend: BCBAs and BCaBAs; providers who work with autistic individuals using ABA strategies

Content level: Intermediate

BACB CEUs and Clock Hours: up to 8 credit hours available for purchase based on attendance

UW Autism Center ECHO Hub Team:

Kellen Dunley, MS, CCC-SLP
Dr. Lucas Harrington, PsyD
